

Clark-Newman-Clayton Award

This award is in recognition of a person who has made an exceptional contribution to pedigreed seed production in Canada and to Canadian agriculture through research, plant breeding or administration.

The recipient is to choose a Canadian University who will be requested to name a suitable post graduate student to receive a \$2,500 grant from the CSGA. The person chosen by the University must be personally involved in a seed related project of value to seed growers.

This award is named in honour of three men, George Clark, Leonard Newman, and Orrin Clayton who made outstanding contributions to the development and growth of the CSGA. Orrin Clayton's name was added to the award in 2002 when he retired after 43 years with the CSGA.

Clark-Newman

1991 – Mr. Jack Johnson – Nova Scotia Department of Agriculture

1994 – Dr. Keith Downey – University of Saskatchewan – graduate student
