Association canadienne des producteurs de semences

**Report on Plot Production
for the Information of the Plant Breeder**

NOT FOR PUBLIC RELEASE AND TO BE HELD CONFIDENTIAL

Name: _____

Grower number: _____
Sequence number: _____ Year: _____

Field Identification: _____ Acres: _____
Variety: _____

Print the name of the individual responsible for this plot: _____

1. (a) Were there a significant number of off-type plants rogued from this plot? Yes _____ ; No _____
(b) If yes, how many of each off-type did you find and what was the appearance of the off-type?

2. Please rate your production of this variety by answering the following questions (if applicable) on a scale of 1 (excellent) to 9 (very poor).

- | | |
|-------------------------------------|---------------------------------|
| • Adaptation to your region _____ | • Suitable for your needs _____ |
| • Consumer interest _____ | • Purity if Breeder seed _____ |
| • Resistance to weathering _____ | • Straw strength _____ |
| • Varietal purity of the crop _____ | • Seed weight and size _____ |
| • Ease of harvest _____ | • Resistance to disease _____ |

3. If disease was a problem, please indicate prevalent diseases.

Please answer the following questions stating the basis of measurement of your choice (bus., lbs., or kg/acre or /hectare)

4. Seeding rate to plant the plot _____
5. Plot was sown in a row width of _____
6. Soil type plot is planted on _____
7. Type and application date of fertilizer applied to the plot _____
8. Name and application date of herbicide applied to the plot _____
9. Name and application date of fungicide applied to the plot _____
10. Approximate number of days from seeding to maturity _____
11. Yield from plot was (bu/acre) ? _____
12. Does this variety outyield other varieties of the same crop kind that you have grown? If so, which ones?

13. Provincial crop reporting region (if known) _____
14. Growing conditions for the plot were (circle one or more) Wet, Average, Drought, Hail, Early Frost, Pest, Other

15. What is the most important improvement that should be built into this variety other than increased yield?

Signature of grower responsible for plot
